Xi Ning

4000 Mayflower Hill, Waterville, ME, 04901, USA
xning@colby.edu • Updated date: May 2025

Research Fields

My research interests primarily encompass survival analysis, semiparametric models, goodness-of-fit tests, and machine learning. I aspire to develop novel statistical methodologies to tackle real-world problems in biomedical studies, clinical trials, and related fields, while also addressing theoretical challenges through semiparametric inference.

Academic Positions

Colby College, ME, USA

- Department of Statistics
  Assistant Professor of Statistics — July 2023 - present

Education

University of North Carolina at Charlotte, NC, USA

- Ph.D. in Applied Mathematics (concentrated in Biostatistics) — May 2023
- Advisors: Drs. Yanqing Sun and Yinghao Pan
- Dissertation: Statistical inference for semiparametric Cox-Aalen transformation models with failure time data

Central South University, Hunan, China

- M.S. in Applied Mathematics — June 2018

Changsha University of Science and Technology, Hunan, China

- B.S. in Information and Computing Science — June 2015

Awards

- Eastern North American Region (ENAR) Distinguished Student Paper Award — 2023
- Lifetime Data Science (LiDS) Conference Student Poster Award — 2023
- Graduate School Summer Fellowship, UNC Charlotte — 2022
- Graduate School Teaching Fellowship, UNC Charlotte — 2022
- IMSI Summer Internship Program Scholarship — 2021
- The first-prize scholarship, Central South University — 2015 - 2018

Publications

Ning, X., Pan, Y., Sun, Y., and Gilbert, P. B. (2023). A semiparametric Cox–Aalen transformation model with censored data. *Biometrics*, 79(4), 3111-3125. (This manuscript won the 2023 ENAR Distinguished Student Paper Award and 2023 LiDS Conference Student Poster Award)

Ning, X., Sun, Y., Pan, Y. and Gilbert, P. B. (2025). Regression analysis of semiparametric Cox-Aalen transformation models with partly interval-censored data. *Electronic Journal of Statistics*, 19 (1) 240 - 290. https://doi.org/10.1214/24-EJS2341

Brown, D., **Ning, X.**, Alford, M., Money, A., Pan, Y., Miller, M., and Lohman, M. (2024). Trends in mortality and survival rates among persons with Alzheimer's disease in South Carolina: 2014 to 2019. *Frontiers in Aging Neuroscience*, 16, p.1387082.

Platonova, E., **Ning, X.**, Pan, Y., and Thompson, M. E. (2024). Patient-centered primary care provider communication and emergency room visits by Medicaid patients in the United States. *Journal of Patient Experience*, 11.

Working Paper

Turner, M., **Ning, X.**, Coley, E., Pan, Y., and Barfield, J. (2025+). Debt-burden and impact on physical therapy students. *Accepted at Journal of Allied Health*.

Platonova, E., **Ning, X.**, Pan, Y., and Thompson, M. E. (2025+). Patient-centered communication with publicly insured individuals at primary care clinics in the United States and patient intention to recommend the clinic. *In revision*.

Young, L., **Ning, X.**, Pan, Y., Jackson, T., Troutman-Jordan, M. (2025+) The use of an escape room simulation in undergraduate community health nursing course: a single group pre-post evaluation. *Under review*.

Platonova, E., **Ning, X.**, Pan, Y., and Thompson, M. E. (2025+). Primary Care Interactions and ER Utilization by Safety Net Hispanic Patients. *Under review*.

Sun, Y., **Ning, X.**, Pan, Y., and Gilbert, P. B. (2025+). Estimation of stratified transformation models under interval censored failure times with auxiliary failure time information. *In preparation*.

Ning, X., Pan, Y., and Sun, Y. (2025+). Checking semiparametric Cox-Aalen transformation models with censored data. *In preparation*.

Young, L., **Ning, X.**, Pan, Y., and Yan, S. (2025+). Identify a reliable and feasible measure assess NAD metabolites in abdominal aortic aneurysm patients. *In preparation*.

Presentations

- 2025 LiDS Conference, New York City, NY (*invited talk*) — May 2025
- Statistics and Data Science Seminar, UMass Amherst, Amherst, MA (*invited talk*) — Mar. 2024
- 2023 LiDS Conference, Raleigh, NC (*poster*) — June 2023
- ENAR 2023 Spring Meeting, Nashville, TN (*invited talk*) — Mar. 2023
- Fred Hutchinson Cancer Research Center, Seattle, WA (*invited talk*) — Oct. 2022
- 2022 October Math Symposium, UNC Charlotte (*contributed talk*) — Oct. 2022
- 2022 Spring Graduate Student Seminar, UNC Charlotte (*contributed talk*) — Apr. 2022

Teaching

Instructor, Colby College

- SC 321 “Statistical Modeling”, Fall 2024
- SC 398 “Intro to Survival Analysis”, Spring 2024
- SC 212 “Intro to Statistics & Data Science”, Fall 2023, Spring 2024, Fall 2024

Instructor, UNC Charlotte

- STAT 2223 “Elements of Statistics II (with R)”, Fall 2022
- STAT 3110 “Applied Regression (with R)”, Fall 2021
- STAT 2122 “Intro to Prob & Stats”, Fall 2020, Spring 2021, Summer 2021, Spring 2022, Spring 2023

Teaching Assistant, UNC Charlotte

- STAT 2122 “Intro to Prob & Stats”, Fall 2019, Spring 2021
- MATH 2164 “Matrices & Linear Algebra”, Fall 2018

Math Learning Center Tutor, UNC Charlotte

- STAT 1220/1221 “Elements of Stat I”
- STAT 1222 “Intro to Statistics”
- STAT 3121/3122 “Prob & Stats I/II”
- MATH 1241/1242 “Calculus I/II”
- STAT 3128 “Prob & Stats for Engineers”
- DTSC 3601 “Predictive Analytics” (Data Science)
- STAT 6127 “Intro to Biostatistics” (Graduate Level)

Experience & Activities

Biostatistics Consultant, UNC Charlotte, NC — 2022 - 2023

Statistical Analyst (Internship), Abbvie, IL — June - Aug. 2021

Visiting Student, Aix-Marseille University, France — June - Aug. 2017

Skills

- R (optimr, survival, MASS, ggplot, etc.), Python (numpy, pandas, etc.), Matlab, SAS, Stata, LaTex, Excel, Word, PowerPoint

Memberships

- American Statistical Association (ASA) — May 2022 - present
- Institute of Mathematical Statistics (IMS) — May 2022 - present
